

# Resource

The screenshot shows the Microsoft Azure portal home page. The browser address bar displays 'portal.azure.com/#home'. The page header includes the 'Microsoft Azure' logo, an 'Upgrade' button, and a search bar. The main content area features a personalized greeting: 'Hi K.L.V, see what more you can get from your Azure free account.' Below this, there are four interactive cards: 'Take a free online course on Microsoft Learn', 'Watch a demo and attend a live Q&A', 'Start a project with Quickstart Center', and 'Explore support resources'. At the bottom, a section titled 'Azure services' provides quick links to various services like 'Create a resource', 'SQL databases', 'App Services', 'All resources', 'Virtual machines', 'Virtual networks', and 'Resource groups'.

Create a resource group

Basics Tags Review + create

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)
